President's Widow Still in Havana. Those in the party were Francisco Madero, Sr., Ernesto Madero, the dead man's uncle, who was his minister of finance; Rafael Hernandez, who was a cousin of the ex-president and held the office of secretary of the interior, and Federico Genzales Garza, who was governor of the federal district of Mexico City, Accompanying Ernesto Madero were his wife and family, but the widow of the late president re-mains in Havana. She is detained by the death of a relative, it is understood, but intends eventually to come to the United States. She and the arrivals here today fied to Havana from Mexico City by way of Vera Cruz after ex-President Madero and ex-Vice President Jose Pino Suarez were shot to Met by Evaristo Madero,

Evaristo Madero, brother of the former president, who has been a student at Cornell university and had been awalting the coming of his father and the others, joined them at quarantine. The Maderos exhibited delight when informed that two more of the brothers, Raoul and Emilio, had reached Texas after a 600 mile ride through northern Mexico, but neither they nor Hernendez nor Garza would admit that Hernendez nor Garza would admit that there was to be any gathering or con-ference of the survivors of the family in San Antonio or elsewhere,

Reticent About Mexican Situation. On the contrary, Francisco Madero, Sr., and Hernandez said that all in the party would remain in this city indefinitely. It is thought that they have business interests here which will require their attention. They were reticent about the overthrow of President Madera and layout comparing on its Madero, and beyond commenting on its sad character, would say little. As one instance, when Francisco Madero, Sr., was asked by a newspaper man as to reports that Ambassador Wilson at Mexico City used his influence against President Madero during the uprising, he simply nodded his head, as if in affirmation, but would say nothing.

OLIVE Tablets OIL the Bowels

A Physician's Substitute for Dangerous Calomel

When you feel that your liver and bowels need help take Dr. Edwards Olive Tablets, Substitute for Calomel. Calomel is effective, but dangerous—causing bad after-effects.

Olive Tablets are especially made to take the place of Calomel, Dr. Edwards for years has been Calomel's foe. He saw its dangers and its disadvantages in 17 years' practice, treating patients for all kinds of liver and bowel complaints. In his efforts to do without Calomel he developed his now famous little olive-oil-colored tablets. Olive Tablets are mild but effective. Safe and sure. Pleasant to take but unfailing in results.

Olive Tablets oil the bowels just enough to start Nature's own action and they tone up the liver at the same time. They are made from a rare combination of vegetable compounds mixed with olive oil.

If you want to regain that feeling of loyous buoyancy, and clear thought, take Dr. Edwards Olive Tablets. They work like a vacation. 10 and 25 cents per box.
